Commissioner for Patents

The response (received 8/19/2004) to the restriction requirement is incomplete. The first paragraph of page 3 of the Office Action mailed 6/17/2004 requires the applicant to elect an invention even though the requirement is traversed (see 37 CFR 1.143). The applicant has made a bona fide attempt to respond to the Office Action but he did not elect an invention for examination. The applicant is given an additional one month of time to completely respond to the restriction requirement which should include an election of an invention for examination whether or not the restriction is traversed.

The applicant may contact the Examiner if he has any questions.
